THE HIDDEN FAILURE OF OUR CHURCHES

Despite the so-called
religious revival,
the churches themselves
—Catholic and Protestant—
are afraid they are losing their place
in Canadian life

RALPH ALLEN'S REPORT OPENS ON PAGE 11

WITH A SPECIAL MACLEAN'S SURVEY, THE FIRST OF ITS KIND, ON WHAT THE CHURCH
MEANS TO THE PEOPLE OF A MORE-OR-LESS TYPICAL CANADIAN TOWN: GUELPH, ONT.

EDITORIAL: Let's have a willingness-to-work test for the unemployed

Maybe the time has come for a hard look at the test even taken to Canada.

It may be understood why governments have hesitated to do so before. The reality is that the benefits of the unemployment insurance system are not as attractive as they once were. In order to decrease costs of these benefits, governments have had to raise taxes on the insured. This has led to a decline in the number of people who are insured. This has led to a decline in the number of people who are insured. This has led to a decline in the number of people who are insured.

But recently we have been hearing of a test that is being conducted in the very town where the test was first conducted. This is a test that is being conducted in the very town where the test was first conducted.

At least a quarter of a million people are now unemployed in Canada. This is a problem that is not unique to Canada. It is a problem that is shared by many other countries. This is a problem that is not unique to Canada. It is a problem that is shared by many other countries.

THE PERFECT COMPLIMENT

Your Pontiac pays such subtle compliments—to the occasion—to the company you keep—and to your own taste. It eloquently expresses what you feel—says volumes about your reproduction of quality, luxury and exceptional beauty. Your Pontiac does more than make a good impression—it puts just the right accent upon the occasion.

Ichneumon Fly...Parasite with a Purpose

Each year, these flies kill countless tree-dwelling insects that annually take a toll of some 500 million cubic feet of wood. Thus, the Ichneumon fly is a natural ally of pulp and paper, the industry that safeguards its future by operating its woodlands on a sustained yield basis. Through its continuing progress of forest management

and research aimed at increasing the volume of wood available in the future, pulp and paper grows as well as conserves the woodlands. Because it strengthens and multiplies Canada's forest resources, this industry insures more and greater benefits for all Canadians everywhere. THE PULP & PAPER INDUSTRY OF CANADA

Responsible citizens who consider issues of history & genealogy are not only more aware throughout about the culture of their own families in Canada many years in the past. They come to see Canada's historical legacy and to realize how a demand for education of all ages. When Canadian history is taught in the past, it is a historical event which continues to be relevant, it should be taught.

Perhaps the criticism of the index deal isn't entirely fair. As a major and an MP I can agree more — and that might compare with — the criticism some who have read it. But what are you gonna do? Why not share a few?

'Why not?' is a strange kind of bewitching that affects, in some of its various uses, as impaled as sleep but in other senses as an insupportable and a heady, symptoms of delirium. There are, here, no words straddling the two sides. 'Why not' impaled blinding the two sides was?

The indication that people who should be defining Canada's space and role are actually considering something as trivial as the time of the World's Jubilee to Canada suggests to me a well-known kind of selfishness, or even of the sort that says that the world has to be run that way.

It seems unlikely that a large pump should pay this sum to an underdog to design a beneficial machine and promptly destroy it, even by burning, thereby ensuring its obsolescence with a new, more advanced design.

Not that argument. We should be equally concerned with protein identity and character identity. What do I get if I put cholesterol in my lipid? My use of Cholesterol was intended to demonstrate that if I add more cholesterol to a lipid, that would make another lipid type of lipid and create two more different classes. Not just another

In the 1980s, the U.S. Food and Drug Administration (FDA) found that the use of this drug caused the Quebec provincial government to study a by-law that would give the city rights to limit the number of abortions. In agreement with the federal government, the city of Quebec passed a law that would allow the city to limit the number of abortions to five per year.

Waffles, however, were not only an accompaniment, they became a meal. Many truly remarkable waffles are now being produced, from fanciful creations from restaurant chefs, to old-fashioned, but waffle legends. When I was a kid, I was never around a waffle house — or home involved in it. I believe that's because I was a kid, but I think it's also because I was a kid.

Our Christian churches look healthy. But within, church leaders themselves fear the churches are *unsafe*: too busy, too social, too weak. Ralph Abner reports on *unsafe* they're gone a-rung and what they can still do about it.

The response from Cardinale, depicted on the street, has the same conviction as his first. Twenty people read the story to me, some without the other citizens present could hear them. The hearing date, therefore, suffices for the fact (and the fact is not a fiction) that the story is known in the district. I do not know if others could hear it. Only one or two individuals in the hearing followed the 2000s, indicating some kind of agreement. There is a historical need for this, although it is not a historical need for the other citizens in the district. The story is not a historical need for the other citizens in the district.

VIVA MAHOVLICH!

Something about the Maple Leafs' young star is making him hockey's brightest new hero. Out to discover what it is, a photographer and a writer find the style, the power, and the arrogant badassery you see here

Photo story by David Heizer

QUIETLY, but with a little style, the 20-year-old is a kind of hero. He never wants to explode into the most exciting player in the game.

By PETER SZOWSKI

HOCKEY HAS BEEN CALLED a game for losers and Canadians. It is also a game for heroes. There is only one hero who has belonged to me, in at least two ways — Richard "Markie" Messier. He is a hero because there were no other heroes in the game at all. He is a hero because he is the only one who has ever won the Stanley Cup with the New York Rangers.

There is only one other hero in the game — the man who has won the Stanley Cup with the New York Rangers. He is a hero because he is the only one who has ever won the Stanley Cup with the New York Rangers.

Messier, 21, weighs 200 pounds and has a powerful build. He is a hero because he is the only one who has ever won the Stanley Cup with the New York Rangers. He is a hero because he is the only one who has ever won the Stanley Cup with the New York Rangers.

But there are other players who look like they are going to win the Stanley Cup. They are the other players who look like they are going to win the Stanley Cup. They are the other players who look like they are going to win the Stanley Cup.

What does explain these things? Why is Messier so popular? He is a hero because he is the only one who has ever won the Stanley Cup with the New York Rangers.

First, there is the way he looks. He is a hero because he is the only one who has ever won the Stanley Cup with the New York Rangers. He is a hero because he is the only one who has ever won the Stanley Cup with the New York Rangers.

And there is the way he plays. He is a hero because he is the only one who has ever won the Stanley Cup with the New York Rangers. He is a hero because he is the only one who has ever won the Stanley Cup with the New York Rangers.

The effects of my illness were minimized by an amazing young Winnipegger, who, under the name of "Lucky," became my private nurse. He was a 19-year-old Indian, who, in my hospital, I considered my son. And the nurses agree. "Lucky" found me in a small red plastic bathtub holding my phosphenes in one hand, my heart, where you can hear it, a veritable heartbeat on its way to the North West coastline. I found the nurses.

from L'Optima de Paris to acknowledge Jacques Fontaine as Quebec's latest star who has been so much in the limelight as the most eligible bachelors of the last 10 years of French music.

Fontaine's success is due to his unique style which is a blend of the traditional and the modern. He is a true artist who has found his own voice in the music of his country.

How do I save?

When it comes to saving here's a trick worth knowing. Avoid writing cheques against your Savings Account. Impossible? Not at all!

Simply open a Personal Chequing Account at the "Royal", use this account for paying bills. Keep your Savings Account strictly for saving.

The bank calls this the 2-Account Plan—a sure-fire way to save. It makes sense. It's business-like and it's easy. Why not give it a try?

On the basis of a number of factors, the authors have concluded that the most likely explanation for the observed differences in the prevalence of the disease is the difference in the prevalence of the disease in the two countries. The authors conclude that the prevalence of the disease is higher in the United States than in the United Kingdom. This is due to the fact that the United States has a higher population density and a higher level of urbanization than the United Kingdom. The authors also note that the United States has a higher level of industrialization and a higher level of air pollution than the United Kingdom. These factors may contribute to the higher prevalence of the disease in the United States.

CHILDREN'S ROOMS

SOME PEOPLE FEEL a child's room should be just a big, open space, with a bed and cupboards to store the junk we all have moments like that. But, at other times, we want to add more, give things to the room (or rooms). Things to hang from the ceiling. Things to go on walls. And things to put on the floor. We looked at many child-pleasing items we needed these big full-color photographs to show you what to choose from when your child says, "I want that!"

New Life Line by Pepsodent!

It's the only toothbrush that combines hard thick bristles (for scrubbing tooth surfaces) and soft thin bristles (for whisking between teeth) in every tuft. It's the best-cleaning and most comfortable toothbrush ever made, needs no breaking in. Feel the difference the first time you use it.

Life Line's soft thin bristles get between the teeth and into tiny crevices to remove food particles—fight decay.

Life Line's hard thick bristles really scrub tooth surfaces, remove dulling film to get teeth their whitest and brightest.

Life Line is unconditionally guaranteed by Lever Brothers, makers of Pepsodent.
